**Vancouver Rheumatology Clinic
offers compassionate and comprehensive care
for musculoskeletal and autoimmune diseases.**

LEADING CARE, **INSPIRING LIVES ...**

Arthritis

Inflammation of one or more of your joints. The main symptoms of arthritis are joint pain and stiffness, which typically worsen with age. The most common types of arthritis are osteoarthritis and rheumatoid arthritis

Inflammatory Diseases

Vasculitis represents a range of conditions where the primary target of damage is the blood vessel. These include conditions like temporal arteritis (giant cell arteritis), granulomatosis with polyangiitis (formerly Wegener's granulomatosis), and other ANCA associated vasculidities.

Spine Medicine

Rheumatology clinic is fortunate to be able to offer care for severe, complex back problems. Dr. Maziar Badii has expertise in pain management as well as diagnostic and therapeutic back injections.

OPENING HOURS

Monday – Friday 08:00 – 20:00

Saturday 09:00 – 17:00

Sunday closed

OUR MISSION

Vancouver Rheumatology Clinic (VRC) is Western Canada's largest independent rheumatology clinic. It is situated at 333 Broadway West and was established more than ten years ago as a leading care provider in the area of rheumatology. Its four medical directors are Royal College certified rheumatologists. The clinic also has access to physiotherapy, several rheumatology nurses and administrative staff. The clinic also provides infusion services through Pacific Arthritis Centre.

All the medical directors at VRC are Professors at the University of British Columbia, Division of Rheumatology. As such the clinic is a vibrant centre of medical education and the largest centre of rheumatology training in the Province. In addition, the clinic has added the expertise of other doctors with specialized training in vasculitis and ultrasound.

At VRC, we specialize in diagnosing and treating patients with rheumatologic diseases. The rheumatologists at VRC work closely with experts in physiotherapy and a wide complement of nursing staff to ensure that the best outcomes for our patients are realized.

TEAM PROFILE

Dr. Maziar Badii is a leading expert in the diagnosis and non-surgical treatment of spinal disorders including inflammatory disorders of the neck and back, mechanical neck and back pain, whiplash associated disorders, sciatica, spinal stenosis, discogenic pain, facet syndrome, vertebral compression fractures, and cancer-related musculoskeletal syndromes.

Dr. Badii completed medical school, internal medicine, and rheumatology training at UBC. He obtained a Masters in Health Care and Epidemiology, with emphasis on spinal research, injury prevention, disability prevention, and early return to work. He also undertook additional spinal training at the Combined Neurosurgical Orthopedic Spine Program at Vancouver General Hospital.

Dr. Badii has practiced rheumatology and spine medicine at the Vancouver General Hospital for over a decade and is an Clinical Assistant Professor in the Division of Rheumatology, Department of Medicine, at the University of British Columbia (UBC).

Dr. Badii is a past recipient of The Arthritis Society of Canada's Fellowship Award given out to promising young rheumatologists and has received a Clinician Investigator Award from the Royal College of Physicians and Surgeons of Canada. He has been a Research Scientist at The Arthritis Research Centre of Canada and was the Director of Injury and Disability Prevention at the Occupational Health and Safety Agency for Healthcare (OHSAH) in BC. He is also a Past-President of the Northwest Rheumatism Society.

OUR PATIENTS **SAY ABOUT US**

Our promise is a quality-driven service, our aim is to ensure the best outcomes for our patients are realized.

Ms. Jill Taylor

"My current along with all past visits to Dr. Wade have been handled with the utmost care concern and genuine affection with a sincerity one seldom see or experiences. Dr. Wade along with his staff are well deserving of sound recognition."

Mrs. Lindsay Macdonald

"I came in for a routine physical and everything went great. Dr. Wade was amazing. Would recommend coming to see Dr. Wade all the time."

CONTACT US

BEFORE BOOKING YOUR APPOINTMENT

In order to be treated at VRC, you need to be referred to one of the VRC rheumatologists by your family doctor. Your family doctor can initiate this process. If you have previously been assessed by a rheumatologist at VRC and your last appointment was more than 6 months ago, it is a provincial requirement that you visit your family doctor for a re-referral in case your clinical status has changed. If you do not have coverage with the Medical Services Plan of British Columbia or are from outside Canada, you may book a private visit directly with one of the VRC doctors.

BUILD YOUR VIDEO LIBRARY

Osteoporosis

Osteoporosis is a disease in which bones become fragile and brittle, leading to an increased risk of fracture. Anyone can develop osteoporosis, although it is more common in older women. A rheumatologist diagnoses and treats osteoporosis with medications, diet and lifestyle changes, and bone density testing.

[View library](#)[Medical Tips](#)

Arthritis - Rheumatoid Arthritis

Arthritis affects the musculoskeletal and causes inflammation and stiffness of the joints. Arthritis is the main cause of disability among people over 55 years of age in industrialized countries

NSAIDs
Non Steroidal Anti-Inflammatory drugs

Anti-IL-17
Drugs for the treatment of autoimmune diseases. Chemically humanized monoclonal antibodies. Acts by blocking interleukin 17, reducing inflammation.

Anti-IL-12/23
Medications prescribed for the treatment of moderate to severe plaque psoriasis in adult patients over the age of 18 years. Candidates are patients able to tolerate phototherapy or medications that are absorbed into the blood stream.

International Speaker

Dr. X. Baraliakos: In your experience, have you seen any loss of efficacy with Secukinumab over time?
